

Dear friends,

In the name of the Argentina Federation of Cardiology I thank the American College of

Rosario Cardiology Society, 36 attendants

Cardiology and the Argentina Chapter of the American College of Cardiology the opportunity to share the first joint

webinar entitled **"1st SEMINAR ON CARDIOVASCULAR PRIMARY PREVENTION"** to our members from all around the country.

San Juan Cardiology Society

With almost 500 attendants from 21 of our 30

Casilda Delegation, 7 attendants

federated societies the degree of satisfaction of most of them was

incredible high. I wish to congratulate all of those that hardly and generously worked in the project and contributed to its success. I

Formosa Cardiology Society, 12 attendants

Santiago del Estero Cardiology Society, 30 attendants

also wish to thank to the coordinators Prof. Pamela Morris and Daniel Piñeiro and the extraordinary good speakers Prof. Laurence Sperling, James Underberg, Alberto Lorenzatti and Jorge Lerman for their memorable presentations. Finally, I want to

send a great thank to the sponsor, Pfizer, without their support this project could not have been carried forward. I know that some aspects of the organization should be revisited for the next two seminars in the near year 2018, but as the first event the results could not be better. I am sharing with all of you some photos of the

Corrientes Cardiology Society

places and attendance. I hope that new proposals could join in the near future this marvelous team.

Warm regards,

Daniel Piskorz

President

Argentina Federation of Cardiology
